Legal Disclaimer

TOO MOUNTAIN WOLF (Mountain Wolf or MW) makes no warranties or representations as to the successful launch of the Token Distribution Event (TDE), or achievement of any other activities noted in this paper, and disclaims any warranties implied by law or otherwise, to the extent permitted by law. No person is entitled to rely on the contents of this paper, or any inferences drawn from it, including any interactions with MOUNTAIN WOLF, the TDE, or the technologies mentioned in this paper.

MOUNTAIN WOLF disaffirms all liability for any loss or damage of whatsoever kind (whether foreseeable or not) which may arise from any individual acting on any opinions and/or information relating to MOUNTAIN WOLF, the Mountain Wolf platform or the TDE contained in this paper or any information which is made available in connection with any further enquiries, notwithstanding any lack of care, default or negligence.

While every effort is made to ensure statements of facts made in this paper are accurate, all projections, estimates, prospects, forecasts, expressions of opinion and other submissions and judgments contained in this paper are based on assumed considerations to be reasonable as of the date of the document in which they are contained and must not be construed as a representation that the matters referred to therein will occur.

Any plans, forecasts, or projections mentioned in this paper may not be accomplished due to multiple risk factors including without limitation defects in technology developments, legal or regulatory exposure, sector volatility, corporate actions, market inconsistency, or the unavailability of complete and accurate information.

All Token distribution event information contained in this document is intended to be indicative only and is not a statement of MOUNTAIN WOLF's intentions. Any such information may be varied by MOUNTAIN WOLF prior to the TDE. If so, any new documentation will supersede this document and be available at

Introduction

TOO MOUNTAIN WOLF has been established in 2019 in Uralsk, Kazakhstan. On 20 April 2020, Mountain Wolf received the letter of accreditation from the Agency for Regulation and Development of the Financial Market of the Republic of Kazakhstan. This entitles the holder to (...) provide service for operations in the Forex Market, cryptocurrencies and electronic wallet (payment processing).

Thanks to this combination, Mountain Wolf represents a new generation of financial institutions that believe in blockchain and in a cashless society. As an upcoming financial service provider, MOUNTAIN WOLF will improve the Easy Trading, digital and cross-border payments by combining crypto and FIAT currencies.

MOUNTAIN WOLF TOKEN [MWT]

Token Specifications

The **MOUNTAIN WOLF TOKEN [MWT]**, is a *utility token (ERC-20)*, based on the *Ethereum blockchain* following a so-called *token-holding-model*. **By holding and blocking a certain amount of MWTs, the users upgrade their Accounts Tier and can profit from reduced fees across the Mountain Wolf ecosystem.** In contrast to a token-spending-model the MWT utility tokens remain in the customer's wallet and are not reduced.

Token Utility

The introduction of MWT into the Mountain Wolf ecosystem will allow any existing accounts, regardless of their *Membership Plan*, to be upgraded to different **Account Tiers**. By buying and holding certain number of MWTs, any user can benefit from lower fees (up to 40%) for the following actions:

- Deposit/Receive FIAT
- Easy Trading Tool
- Send-Wolf: FIAT transfer within the Mountain Wolf ecosystem
- FIAT withdrawals
- Send-Card: Loading of the linked Prepaid card
- Sending Cryptocurrencies
- *etc.*

The MOUNTAIN WOLF TOKEN [MWT] creates sustainable value for its holders by upgrading their accounts to higher Tiers with lower fees and by applying the market principle of supply and demand via exchange.

Token-Holding-Model

The benefit or added value of the MWT is generated by holding and blocking a certain number of these tokens. The existing account is thus upgraded and the customer benefits from reduced fees. The **Account Tier** granted, and the respective reduction in fees is directly connected to the number of MWTs held and blocked in the user's wallet. The different **Account Tiers** are defined and set by Mountain Wolf, and the amount of MWTs necessary to meet each Account Tier can change. The MWTs remain in the customer's wallet. *(The MWT model is in contrast to the so-called token-spending-model, in which the tokens must be issued directly for their use or added value).*

Holding and blocking period

Each **Account Tier** upgrade and the corresponding benefits requires the ownership of a specific number of MWTs and the commitment to block them for a specific period. By holding 600 MWT,

1300 MWT, 2500 MWT or 5000 MWT in the personal MWT wallet and being willing **to block it for 6 months, the account is upgraded**, and the fees are reduced respectively (up to -40%). Blocking means that no MWTs can be sent or sold during this period. It is also possible to acquire additional MWTs, to upgrade to a higher Tier and enjoy greater discounts. After the blocking period, the MWTs can be sold or dispatched freely. Customers must bear in mind that a possible reduction in MWTs may lead to a lower reduction in charges. Regarding discounts, the MWT Wallet must again be blocked by the Customer.

Token Sale Details

A total of 200,000,000 MOUNTAIN WOLF TOKENS (MWT) are generated and sold by TOO MOUNTAIN WOLF. The sale of MWTs is intended to promote the international growth of the company and the Mountain Wolf ecosystem. The financing target is up to EUR 50,000,000.

***Legal statement on version 1.3**

The extension of Phase 2 and the resulting extension of Phase 3 (Token Sale) and Phase 4 (Public Token Sale) does not constitute a disadvantage to any customer. The retention period for Mountain Wolf Tokens remains unchanged.

Accepted currencies

The Token Sale will be done in FIAT (EUR).

Trading liquidity	40%
Marketing, Sales, Customer acquisition	40%
	100.0

Vesting Phases

The MWTs allocated to management and supporters are released over a period of three years:

2021: 10,000,000 MWT

2022: 10.000.000 MWT

2023: 10.000.000 MWT

MWT Token Burn (repurchasing program)

One year after the public Token Sale via the Exchange platform which starts from ~~1 January 2022~~ **1 April 2022**, the Mountain Wolf management can decide on a buyback program including a MWT burning program. A maximum of 10% of net profit may be used for this purpose. In any case 100.000.000 MWT must remain on the free market. Thus, this program ends when this minimum stock level is reached or when the management decides against a buyback program or token burning program.
